

# Actemium

Actemium's mission is to support its customers in improving competitiveness and industrial performance.

## Actemium: an international partner for industry

[Configure cookies](#)

With a focus on continuous optimization of performance, Actemium accompanies its customers to meet the new digital era. The network, with more than 300 dynamic business units and 20,000 employees in 40 countries, is specialized by market segment and allows a customized approach, presenting multi-technical solutions for multiple installations in five continents.

### Design, carry out, maintain industrial processes and plants.

Actemium proposes solutions to the most diverse challenges. Business units operate from consulting and engineering phases to carrying out, commissioning and maintenance. Its experience and history make Actemium a reliable and solid partner, committed to long-term projects and strategies.

Our specialties cover the entire industrial life cycle:

- Instrumentation & process control
- Electrical engineering
- Mechanical Engineering
- Thermal engineering
