

# VINCI Energies has just inaugurated its Innovation space L'Atelier in Brazil

Between February 13th and 15th, VINCI Energies set about promoting its InnoDays 2019, and on 14/2, it inaugurated L'Atelier, a new space dedicated to innovation.

L'Atelier will allow us to promote our Smart City, Smart Industry and Smart Grid solutions, as well as to receive local start-ups and to organize meetings and brainstorming sessions with clients and partners.

L'Atelier has already implemented the following solutions:

### Lighting:

- ↳ LED luminaires with remote control;
- ↳ Architectural lighting;
- ↳ CMSS - CityApp.

### Mobility:

- ↳ Smart parking;
- ↳ Pedestrian crossing;
- ↳ CityZen smart parking app.

### Smart Grid:

- ↳ Photovoltaic parking;
- ↳ Sisnergy;
- ↳ FACES

### Industry 4.0:

- ↳ Virtual Reality.

### Security and monitoring:

- ↳ LPR and Facial recognition;
- ↳ Analytical (objects, people, traffic flow);
- ↳ CO2 monitoring.

### Control center:

- ↳ Information panel ;
- ↳ Demo - BIM City;
- ↳ Vision 360;
- ↳ The makers.
